HOW WE WORKED

Operating as a web development team

Each member took on a defined role, and the team contributed equally to building both the back end and the front end of the app.

Built the workflow that correctly books a service based on customer needs.

INDUSTRY CHALLENGES

Traditional grooming is manual and inefficient

Traditional pet grooming lacks automation, which creates inefficiencies and a heavy reliance on manual labor. Purrfectly Groomed automates key processes, potentially reducing time and costs by up to 40% and helping small businesses operate efficiently and maximize profitability.
